It o doubt will be one of the most enlightened as well as one of the largest conventions that the State has ever known.

Governor Magoffin has asked leave to introduce a bill to prohibit the marriage of pret cousius. Governor Magoffin pre ed this important subject to the consideration of the Legislature in his first meswinter a bill of this character passed the Senate. The question is one of the highest social importance. The most ordinary observation cannot fail to notice that the offspring of first cousins are, almost in every case, in one at least of the children, more or less affected in body or mind, sometimes in mind, total idiotsunable even to walk. A large portion of the deaf mates, and of the blind children of the State-a still larger number of the feeble minded, and a fraction of the insane-are the children of parents hearing this near kindred relation of blood, -only one remove from brother and sister.

This fact was emphatically asserted by the ex-officio Commissioners of the Feebleminded Institution at Frankfort last winter, in a report made to the Senate of Kentucky. These gentlemen have had more experience on this subject than any other p rsons in the State, having been conected with the public charities as super in endents and principals for many years.

Dr. Sutton, who was Register of Marrisges, Births, and Deaths for several years in this State, an old and distinguished physician of Georgetown, collect ed and published, in one of his reports, a large mass of statistics going to prove the marriages to the offspring. Dr. Bemiss, formerly of Louisville, now of New Oraus, collected and published, a few years ago, a mass of facts showing the sam c.

Again: the committee provided for the cotablishment of "one or more schools in each school district.

Hox. B. J. Peters.—There seems to be a very general desire throughout the en-tire State that the Hon. B. J. I'eters, the present Chief Justice of the Appellate Court, should be a candidate for reelection to a seat upon the Supreme Bench.

Throughout all the trying times through which we have just passed he stood true to the Constitution and the laws, an neither the blandishments of power not the threats of military satraps could ever turn him from the honest and patriotic discharge of the duties of his high office. He neither wavered nor faltered in follow. Court, should be a candidate for re elecneither wavered nor faltered in follow the plain path of duty, and the threats

Judge Peters is one of the purest and most incorruptible invists that ever adorned the ermine, and his decisions display the highest research, learning, and ability.

It is understood that at the earnest solicitation of friends he has consented to be a candidate for re-election if such should be the wish of the Democratic party of his district. We predict that he will be elected by a majority of thorsands, for Kentuckians delight to bonor such men, and in so doing they honor themselves.—Frankfort Yeoman.

THE WILSON CREEK BATTLE GROUND.

work is attended with a great deal of difficulty, as the bodies were placed in the pit on the top of each other, and it consequently requires the greatest care to separate them.

We also visited the National Cemetery, and saw the work that had been done, and the plans by which it is to be finished. It will be a beautiful place. One corner of the cemetery will be set apart for the Wilson Creek dead, and we think that a monument to the memory of Gen. Lyon should be put up smong the graves of the gallant patriots who perished under his leadership. There has been some \$15,000, we underpatriots who perished under his leadership. There has been some \$15,000, we understand, subscribed for the purpose of a moniment to Gen. Lyon, and is now in the hands of the State Treasurer. Cannot some move be made toward having that sum invested in a fitting testimonial to the memory of the gallant soldier, true patriot, and t'hristlan gentleman, Nathaniel Lyon?—Springfield (Mo.) Stock of every description are rapidly disappearing. The planters find it impossible to guard, or save even, their mile cows and broad animals. Without money or employment the negroes find it impossible to obtain meal or or bread, and they take to the woods or bighwajs, or seize and appropriate every live animal they can find. They even not traps for cattle and hogs. Leagued together in clubs and associations, they are encouraged in these depredations by a confusence in their airlity to resist any attempt to arrest or punish them. These sets are not insignated by political passions or intenences, nor have they any political min or purpose, though the couliton which prompts them in their desperate course has been largely due to political emissaries that farms, agricultural implements, and stock would be given them by the government. But they have got well over this infatuation, and now it is actual want and starvation which see driving them to desperate and lawless acts, and is producing a deep and wide-spread teleing of alarm and anxiety in the country. THE CHAS COAL. To the I'ditors of the Loni 'le J m

Allow me to make an inquiry or two concerning the coal purchased by the city. The Council appropriated money to buy coal, with the intention of furuishing it to consumers at cost. I see it announced that the city has received some of its purchase and is selling it at \$1 a load. This coal is, I believe, Hawesville or Canuelton. Now I would ask, in behalf of myself and others, why this coal costs the city \$9 a load? Daily two or three weeks ago, coal from these same fields was sold, by persons who had gone into the business for profit at \$7 a load, delivered in Portland, or \$7.50 to \$8 in Louisville. Why will the towhoats not bring it as cheap for the city, when it is buying it

Agreeably to a published call a large number of the colored conservatives of Montgomery assembled at Estelle Hall set right for the purpose of forming a colored conservative club. #### AFFAIRS IN MISSISSIPPI,

Gov. Humphreys has issued a proclamation stating that he has received information from prominent and reliable citizens in various parts of the State, to the effect that the freedmen are organizing, arming and preparing for a conflict with the whites, and declaring their intention to seize and hold the lands of their late mastera. He calls upon them to desist warns them of the consequences, and sist, warns them of the consequences, and sist, warms them of the consequences, and urges all civil officers to be vigilant and prompt. Gen. Ord has joined him in the proclamation, and tells the freedmen that they have no right to their masters' lands, and that he will use the power of the military forces at his command to put down any riotous demonstrations on their part

There is no doubt in our mind that the There is no doubt in our mind that the Yankee emissaries in our midst have been urging the freedmen of the Loyal Leagues to deeds of violence and plundar, and that many of them are foolish enough to listen to their teachings. We advise every white man in the community to he prepared for any emergency. Keep plenty of annualition on hand, and your guns where you can put your hands out them at manneut's can put your hands on them at a momeut's notice. Treat the freedmen kindly—give them uo canse for complaint, and then if nothing but fight will do them—if they are determined toget. nothing but fight will do them—if they are determined to get up a war of races—give it to them fast and thick, and don't allow a Yankee thief who has been urging them onto escape. There is no cause for alarm if all will act prudently, and we call upon all well disposed freedmen to promptly report to the civil officers all those who are disposed to violate the laws. Their own safety imperatively demands it.—Jackson (Miss) Clarion.

AN AWILL TRAGEDY. -On Sunday, Dec. AN A WILL RAGEDY.—On Sunday, Dec. th, very early in the morning, an act was respectated, on the road leading from ourstand to Tuscaloosa, at the house of Dr. DeGraffenreid, about thirty miles from outland, by which Dr. DeGraffenreid, Ir. Nosh, and Mrs. Nosh lost their lives. Courtland, by which Dr. DeGraffenreid, Mr. Noah, and Mrs. Noah lost their lives. A Mr. Briggs, a Methodist preacher, who had been at was time counned in the lunatic Asylum at Tuscaloosa, was staying at Dr. DeGraffenreids. Early that morning the Dr. and Mr. Briggs was abusing his wife, from whom he had been separated, when Dr. G. told him he ought not to shuse his wife so: whereupon Briggs picked up a half-made axe handle and struck the Dr. on the head, felling him to the foor. He then struck him again, killing him instantly.

Mr. Nosh, who is an old man, rushed in to help the doctor, and he was immediately killed with the same weapon. Mrs. Noah hearing the noise, went into the room, and Briggs killed her in the same manner. A little hoy, who was in the room, saved his life by getting under the bed. THE CHARGES AGAINST "IMPEACHER ASHLEY."—In the Washington correspondence of the Cincinnati Commercial the ollowing statement occurs:

"It is given out by reliable men that a

committee will he appointed in the House o investigate charges against Ashley for attempting to suborn witnesses against lohnson in the late impeachment investi-

gation."
We have no means of ascertaining how reliable this aunouncement may be; but we fear that the proposition mentious approaches too nearly to justice to be seriously entertained by the present radical majority in Congress. In his reluctant statements to the Judiciary Committee, Impeacher Ashley unblushingly confesses his particulation, with the confesses his particulation. impeacher Ashley unblustingly confesses this participation in a vite conspiracy (the letails of which had already heen published) for the shoopation of perjured testimony to encompass the removal, and even the death, of the l'resident of the United states. If Congress has any respect for itself collectively, or for its members individually, it should, as a solemn duty to tself, to them, and to the people, prompty, and thoroughly, and impartially investigate this damning charge against one of liat body, who has acted so prominent a part in its most disreputable proceedings. that body, who has acree so promise it is part in its most disreputable proceedings. CONTRACTING FOR LABOR.—A few of our citizens are making contracts with the negroes for farm labor the next year. We learn that very few contracts, however, are being entered into. The present depressed and unsettled condition of political affairs deters many from making any efforts, at the present time, in the way of farming. The present year has demonstrated that cotton caunot be raised at the exorbitant price paid the laborers consequently, the contracts being extered into for the next crop are at a much less figure than all previous ones. Lands, too, are renting much lower, and planting expenses are being reduced all round. It cost the farmers of this section, this year, in the neighborhood of fifteen cents a pound to reach the market with their cotton. When it is considered that middling cottons were selling in our city yesterday at nine cents per pound, without the tax, it will be seen what a sacrifice the planters have had to submit to, and admonishes all to ruise the sisple on a more economical basis.
